Adventure Awaits ...

The 2019 Keystone Retreat MKTS destination trailer is one of our most popular model and offers a spacious layout. The bedroom is at the rear with a private entry, king island bed, a large wardrobe, a closet prepped for W/D and direct access to a spacious bathroom with toilet, corner stall shower, sink and linen closet. Going forward is the upgraded kitchen with slideout containing a residential-size refrigerator, 3-burner stove w/oven, pantry, kitchen island countertop and abundant storage; this slideout also contains the media center. Adjacent to the kitchen is another super-slide with free-standing dinette and theater seating. At the very front is a sleeper sofa and three large windows.
